### DESCRIPTION
quality decorative multi-effect water based semi-transparent glaze suitable for creating antique and broken colors type effects

### PRINCIPAL CHARACTERISTICS
- for interior use only
- unsaponifiable
- good colour retention properties
- many decorative effects possible
- excellent wash and scrub properties when overcoated with 0889 Sigma Emulsion Glaze
- base coat colour influences the final result
- almost odourless
- easy to apply
- conforms to environmental specifications

### COLOUR AND GLOSS
see Sigma Standard Colour Selection – flat
note: being a semi-transparent material the colour obtained is dependant on the thickness of the applied coating and can vary slightly from the Sigma Standard Colour Selection

### RECOMMENDED SUBSTRATE CONDITIONS
- properly prepared, primed, filled and finished systems as per the recommendations indicated in the relevant Sigma datasheets
- Sigma Waterborne and Texture finishes are suitable surfaces on which to apply this product

Please turn
The information in this data sheet is to the best of our knowledge correct at the date of printing. The company reserves the right to modify data without notice. Any change in data will normally be followed by issue of a new data sheet. The user should check the date of printing and if more than 12 months have elapsed, then the data should only be used after checking with our nearest sales office to establish that they are still valid. Since conditions of application and service may be beyond our control, no liability can be accepted on the basis of this data.

SIGMULTO EXPRESSION
0890

January 2014

RECOMMENDED SUBSTRATE CONDITIONS
- previously painted substrates
- remove all blistered, cracked, brittle and poorly adhering paint, and any other contamination from the surface
- good intact wall paint layers must be cleaned with a 3% solution of ammonia in water
- selected base system must be reapplied prior to application

SYSTEM SPECIFICATION
Internal use
- single or multiple applications to achieve the desired effect
Additional protection
- one coat of 0889 Sigma Emulsion Glaze

INSTRUCTIONS FOR USE
GENERAL
after the application of a well covering base coat in the desired colour
Sigmulto Expression can be applied by roller or brush. To obtain the desired decorative effect, immediately work the wet coat with a flap roller, sponge, chamois leather, comb, spatula or any other suitable application tool.
When subsequent coats/colours (after drying) are being used, it is preferred to start with the darker colours and proceed to the lighter finish colours.

METHOD OF APPLICATION
BRUSH AND ROLLER
Recommended thinner
up to 30% depending on desired effect
CLEANING SOLVENT
sweet water

SAFETY PRECAUTIONS
see safety sheet 1570 for information on LEL and TLV values

ENVIRONMENTAL
complies with VOC specifications
VOC < 50g/l
