

**SIGMA
PAINTS**

Highlights

YEAR:

2008

PROJECT:

NCB regional Office Building - Riyadh

DESCRIPTION:

NCB, the National Commercial Bank, is located on Al Mazzar Street, close to the cross junction of Dabab St and Al Mazzar St, in one of the most prestigious areas in Riyadh. The area distinguished for its modern and fancy towers such as France Bank, MOI Tower, Prince Lolowa and Riyadh Marriott Hotel.

While the glimmering glass-coated commercial towers require mainly interior paints, all paint manufacturers, small or major players, want to be part of the esteemed, grand buildings on Al Mazzar Street. Sigma proposed three quality paint solutions and provided three quality paint systems.
