2006

PROJECT:

Old Town Residences Project

DESCRIPTION:

This development ranges from low-rise three storey apartment buildings to a number of exclusive mid-rise buildings with Penthouses. The project is located in the area adjacent to the Burj Dubai. Architectural hints are taken from existing traditional buildings in the UAE, including the Al-Bastakia neighbourhood of Bur Dubai and the residences of Sheikh Saeed Al-Maktoum and Mohammed Shareef Boukash – with textures that reflect the gypsum, clay or sarjool plastering used in the early twentieth century. Earthy natural tones reflect the surrounding landscape. Sigma Dubai supplied paint worth over Dhs. 1 million, for a total of 13 buildings.
