# Highlights

**YEAR:**

2003

**PROJECT:**

Consulting & Design Engineers, AMCDE Office building

**DESCRIPTION:**

AMCDE - established in 1992 by the merger of Consulting and Design Engineering (CDE) and Abdulla Al-Moaibed Engineering (AME) – is offering a wide range of engineering services comprising of conceptual design, detailed design and project management. It shelters a professional multinational workforce working in compliance with ISO 9001: 2000 Certified Quality Management System in providing high quality, cost effective engineering solutions throughout the Gulf region. AMCDE's major strength lies in its Oil & Gas support services projects, developed from the continuous services provided to Saudi Aramco and other industrial sectors.

AMCDE's affiliation with one of the largest engineering firms in the world, Parsons Brinckerhoff (PB) Group, further strengthens the company's capabilities in infrastructure & power projects. AMCDE resources include sophisticated engineering software, a rich library and top-of-the-line business computing equipments - all placed at the disposal of AMCDE customers. It is no surprise that the centrally located AMCDE's office building is contemporary and sophisticated, and the exclusive Patchi chocolate showroom on the ground floor gives it an added sweet and royal value. Sigma's quality paint solution crowns the walls.
