

YEAR:

2003 - 2008

PROJECT:

Muscat City Centre

DESCRIPTION:

When Muscat City Centre and its 95 retailers opened their doors for business in Muscat's suburban Al Hail area in 2003, it left a mark in Oman retail history.

Muscat City Centre quickly became a meeting point. In addition to employing hundreds of people, many of whom are local Omani, the mall offers a wide range of retail outlets, a food court and an entertainment space for children, which provides unbeatable value in Oman. The developer, Majid Al Futtaim Group, expected Oman's modest retail sector to grow at a tremendous pace with an ever increasing number of customers eagerly exploring the shopping scenes, and thus at an early stage planned the second center in Al Qurum, the heart of Muscat. Prayer rooms for men and women, currency change outlets, taxi services, wheelchairs, strollers and fun cars for children are the standard offerings at Al Futtaim outlets all over the Middle East in pursuit to make the visitors feel comfortable and thus spend and enjoy shopping to the maximum...

The renowned contractor, Carillion Alawi LLC has been active in Oman since 1965, mainly in infrastructure development for the oil industry and facilities for armed forces and ministries. Since then, the company has been involved in the construction of many hallmark projects. The expert contractor was content with Sigma's various paint solutions and its technical expertise, and thus used the same systems for the Qurum construction that was inaugurated five years later.
