

YEAR:

1976 - 2006

PROJECT:

Khalifa Stadium

DESCRIPTION:

Two 727 aeroplanes fully loaded with Sigmatex flew from Holland to Qatar in 1976. This special and urgent delivery was for the decoration of the original Khalifa International Stadium which occupies a unique place in the history of sports development in Qatar by hosting the 1st GCC football tournament. Later Khalifa Stadium achieved international recognition for its 3-dimensional engineering solutions, reflecting current dynamic & contemporary Qatari architecture. Sigma Paints Qatar also supplied paint for the second phase of the stadium.

Sigmaflex Premium, is a superior quality elastomeric crack-bridging & anticarbonation coating based on non-toxic, UV-resistant pure acrylic resins. This tested and certified premium paint system with excellent flexibility & elongation properties was selected to meet with the high standards and requirements for the Sports Tower of the Khalifa Stadium.
