

YEAR:

2004

PROJECT:

Hadramouth University

DESCRIPTION:

The development of Hadramouth University and Taizz University was overviewed by the UN. A group of international experts, the Mission, was assigned by the Director-General of UNESCO (United Nations Educational, Scientific and Cultural Organization) in cooperation with the host, the Yemeni Higher Education Committee, for the purpose of assisting Yemen in the preparations. The Missions agenda was to define the requirements and compliment the study through first hand site observations of the current planning and implementations in progress. This was accomplished through interviews and discussions with the leaders of the academia and local, regional and national government, as well as private industry leaders.
