

Highlights

YEAR:

2006

PROJECT:

Eastern Province Cement Company, EPCCO

DESCRIPTION:

EPCCO commenced commercial production in 1985 and according to records, production reached 1,449,442 tons clinker and 862,605 tons cement, that very year. Ten years later the plant achieved a record clinker production of 2,357,423 tons, which is 12.26% more than the nominal capacity. Since then the plant is operating on its optimum production level and has been setting new operation benchmarks within the cement industry, simultaneously receiving international fame in the world market for its quality products.

The Company's Head Office is situated in Dammam, in the Eastern Cement Tower, King Fahd Road (Dammam – Khobar Highway). The Tower, raised as an administration office and investment building, was the very first tower by the highway and is praised as one of the modern architectural masterpieces in the Eastern Province. The internal space is utilized in an attractive and scientific way.

As the company has been committed to high quality standards since inception – conforming to the relevant international standards American (ASTM), British (BS), European (EN) etc as well as national SASO standards Sigma's paint solution was the most natural choice for its benchmark / landmark building.
