

**SIGMA
PAINTS**

Highlights

YEAR:

2008

PROJECT:

AL Qiblah Complex

DESCRIPTION:

Al-Madinah Al-Munawarah is the second most important Holy City to Muslims after Makkah Al-Mukkaramah. The City of the Messenger comprises the Mosque of the Prophet (PBUH), His grave, the Islamic University, King Fahd Complex for the Printing of the Holy Quran and many archaeological Islamic features. The Light City was a city which loved the Prophet (PBUH), and which He in turn loved. On its soil He built His sacred mosque (Masjid Al Nabawi Al Sharif), and He Himself participated in its construction, and it was there He was buried.

Nowadays, Al Qiblah Complex VIP Hotel is a significant building in Madinah due to its vicinity to the Holy Mosque as well as being the biggest hotel in the area.

Sigma secured the project due to many reasons, close cooperation with the consultant and contractor, technical advice throughout every phase of the painting job – from planning to execution, technical training and support to the painters starting from the surface preparation followed by regular visits and check-ups. The contractor was further pleased with Sigma’s proposed paint system, as it provides good coverage and spreading, thus an attractive price per sqm and great value for money.

OWNER:

Munshaat for Projects and Contractors CO.

LOCATION / COUNTRY:

Madinah - KSA

SIZE (Sqm):

250,000 m²

CONTRACTOR:

Saudi Bin Ladin Group
